Guiding Principles in Assistive Technology Section 4

- Guiding Principles
- Quality Indicators for Assistive Technology Services

Consideration of AT in the IEP Process Section 5

- Implications for IEP Teams
- The Difference Between AT Consideration and Assessment
- Quality Indicators for Consideration of Assistive Technology Needs
- Documenting AT Consideration
- Consideration Flowchart

The Assistive Technology ProcessSection 6

- Overview of the AT Process
- Quality Indicators for Assessment of AT Needs
- Step 1: Initiating the AT Process
- Step 2: Identifying the Team
 - Team Decision Making Strategies
- Step 3: Assessment for Assistive Technology
 - Overview of SETT
 - Extending the SETT Framework
 - The Student
 - The Environment
 - The Tasks
 - Data Gathering Techniques
 - AT Assessment Guides
 - The Tools
 - Continuum Sample
 - Solution Continuum Worksheet
- Step 4: Discussion of AT Systems and Recommendations
- Step 5: Acquisition and Implementation
 - Quality Indicators for AT Implementation
- Step 6: Follow Up and Ongoing Assessment
 - Quality Indicators for Evaluation of the Effectiveness of AT
 - Technical Support Form
- Transitions
 - Quality Indicators for AT Transition
- Planning for the Future

Writing Assistive Technology in the IEP Section 7

- AT and the IEP
- Quality Indicators for Including Assistive Technology in the IEP
- Present Level of Performance
- Student Needs
- Goals and Objectives
- Services.

Assistive Technology Assessment Guides. Appendix A

- Assessment Guide: Current Abilities
 - Student Information
 - Auditory
 - Vision
 - Seating and Positioning
 - Mobility
 - Motor Access
 - Academic
 - Written Communication
 - Computer Assisted Writing
 - Augmentative and Alternative Communication
 - AAC Device
 - Summary

Resources

- References and Resources Appendix B

This manual is provided for all school districts in Ohio as a resource and reference guide in the assistive technology (AT) decision-making process for students with disabilities. General information is included on the legal implications and the school district’s responsibility to consider the assistive technology needs of all students who are receiving special education services. The local school district must provide for the specific needs of students with disabilities through a team process, including assessment and implementation. Local educators and related service providers must make sound judgments on assistive technology solutions that will be a part of the student’s individualized education program (IEP).
