

Graphic Organizer- 5 W's Chart- School Dance

Fill in each row with details about a social situation that went wrong. Then identify options to consider if a similar event occurs again.

What happened? (Identify social situation)

I grabbed Allie's hand at the dance and pulled her close to me because I wanted to dance with her. She pushed me and she yelled at me. My friends started laughing at us. That made me angry. I shoved Allie. The principal, Mr. Burkett, took us to the office, called my parents to pick me up and take me home.

Where did it happen?

Middle school dance

Who was there?

Me, Allie, my friends and Mr. Burkett

Why did it happen?

"I really wanted to dance with Allie. She is nice to me and I am her friend. I think she was afraid when I grabbed her hand and pulled her close to me."

What can I do different next time? (List options)

I can ask Allie to dance instead of grabbing her hand. If she says yes, I can gently take her hand and start to dance.

If she says no, I can take a break and go get a drink of water or I can practice taking 10 deep breaths and then ask someone else to dance.
