

## Understanding and Addressing Challenging Behavior: Expect Success

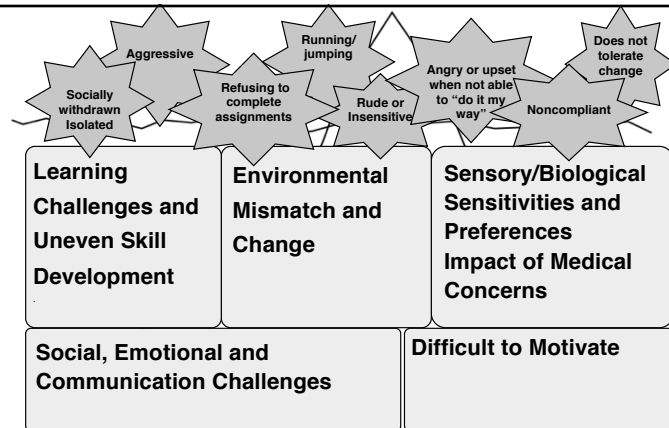

**BONUS Webcasts Introduction:  
Evidence Based and Promising Practices to  
Support Building the Intervention Plan**

## Evidence Based and Promising Practice

“The best measure of effectiveness of an intervention is whether it is **effective for a particular individual**. It is of utmost importance to collect and analyze **data** when using interventions with a student with autism. If an intervention results in **positive change** for a particular student and you, as an educational professional, have **data to support** that, then the intervention is **evidence-based for that student**.”

TARGET: Texas Autism Resource Guide for Effective Teaching, retrieved 10/3/11

## FYI

**CATEGORIES ARE JUST A WAY TO  
ORGANIZE INFORMATION SO  
YOU CAN THINK ABOUT IT,  
JUST A SUGGESTION,  
NOT A "HAVE TO"**

## Assess Yourself

### Directions:

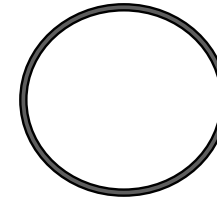

Mark each practice/intervention using key below

- ✓ **Have it on my tool belt:** can implement with fidelity
- ★ **Know a little bit:** need to learn more to be able to use it
- ✗ **Haven't heard of it:** need to look this up

## Track for Your Individual

As you move through the webcasts, circle possible interventions/strategies/ideas that might be helpful for your individual.
