

Getting My COVID Test (for Younger Individuals)

I am scheduled to get a COVID test.

A COVID test will tell me if I am healthy.

My family will take me to get my COVID test.

A person will give me a COVID test.

They may be wearing a:

- Mask
- Suit
- Goggles
- Gloves

They will stick a long, cotton swab in my nose and/or my throat.

I can hold my fidget or favorite toy while I'm getting my COVID test.

I may not like it, but I will be fine.

I need to hold still until they are finished.

It's important for me to stay healthy and protect my family, friends, and teachers.

This makes everyone happy.
