

## Having to Quarantine for Younger Students

I have been told I need to quarantine.

Quarantine means that I need to stay home. I won't be able to go to school or leave my house for several days.

I need to quarantine because I was around someone who was sick or tested positive for COVID-19.

There may be other people in my school and/or family who also need to quarantine.

My teacher or school nurse will tell me how long I will need to stay out of school.

Being in quarantine doesn't always mean I am sick. It means I need to stay home. My family will keep checking me to make sure I am not sick.

While I'm in quarantine, I may still have some schoolwork to do. My teacher will let me know what to do.

After I'm finished with my schoolwork and my family says it's ok, I may:

- Play a game on my device

- Watch TV

- Play with toys

- Play outside

As soon as my quarantine is over, I can go back to school and see my friends again.

It's important to keep others and myself healthy and safe.

This makes my family, friends, and teachers happy.
