

*Use this social narrative to help explain why a certain business or place is closed at this time. (ex: McDonalds, Library, Movie Theater, etc..) and what changes to expect when the individuals do get to return to their favorite place.*

**I Miss Going To ( \_\_\_\_\_ )**

I really miss going to \_\_\_\_\_.

Right now, \_\_\_\_\_ is not open for me to go inside.

\_\_\_\_\_ is closed so people can't spread germs.

Germs can make people sick.

It may be awhile before I can go back inside to \_\_\_\_\_.

When I do get to go inside to \_\_\_\_\_, there may be changes.

It's OK if there are changes.

People at \_\_\_\_\_ need to make changes so we can all be healthy.

Some changes I may see are:

- People wearing masks
- People staying 6 feet away from each other
- Less people allowed inside the building
- Plexiglass in front of workers
- A visual on the floor to mark off where people need to stand while waiting in line
- Arrows on the floor to show what direction to walk

The people that work at \_\_\_\_\_ want me to be safe.

My family wants me to be safe.

I will be happy when I can go inside \_\_\_\_\_ again.
