

I Miss My School Friends

Right now, I have to stay home from school.

When I stay home from school, I can't see my friends. I miss my friends from school.

Sometimes this makes me feel angry. Sometimes this makes me feel sad.

I can try to talk to my family about missing my friends.

I can try to listen to what my family tells me I can do.

When I am missing my friends, maybe I can:

- Call or text my friends

- Video chat with my friends

- Play games online with my friends

Being with my friends in a different way can make me feel better.

My family will be happy that I am trying to see my friends in different ways.
