My School Looks Different

I like my school. Going back to school makes me happy. I am excited to see my teachers and friends.

My school looks different than it did before. It is OK for my school to look different.

Some new changes in my school are:

- Markers on the floor to show me where to stand.
• Arrows in the hallway to show me where to walk.

• People wearing masks or face shields.

• Dividers on the tables to keep people separated.
My teacher wants me to stay in my assigned area.

Staying in my area keeps me and others safe and healthy. My school looks different, but it is still fun. It makes my teacher happy when I stay in my area.
