

Social Autopsy- School Bus

What happened?

While the bus was moving, I got out of my seat to go see a friend. The bus driver asked me to sit down. I told him he was dumb and that he couldn't make me sit down.

What was the social error? Who was hurt by the social error?

Not following the bus safety rules by getting out of my seat while the bus was moving. I disrespected my bus driver by telling him he was dumb.

What should be done to correct the error?

Stay in my seat until the bus comes to a complete stop. Apologize to the bus driver.

What should be done next time?

I need to stay in my assigned area on the bus and follow bus safety rules. I can use my wait card to help me remember to stay seated. I can listen to music and/or hold a fidget to help me stay in my seat.
