Social Distancing

Right now, I need to social distance myself from others. Social distance means I need to have extra space between myself and others. Extra space means about two arms lengths from each other.

Some places I will need to social distance are:

- On the playground
● In my classroom

● On the bus

● In the gymnasium
- In the hallway
- In the library
- In the cafeteria
I need to be careful not to get too close to others. If I get too close, my teachers can help me know where to sit and stand.

Even though I need to social distance from my friends, we can still have fun. It makes my teachers happy when I social distance.

Social distancing keeps me and others safe and healthy.
