RATIONALE

Employability skills are those personal social behaviors and daily living habits that have been identified by employers and young entry-level workers as essential for obtaining employment and for success in the workplace. These are life skills that must be taught with the same rigor as basic skills. The development of such skills is a life long process, with performance being relative to a child’s ability and age. Parents have the responsibility to teach and expect employability skills from children of all ages.

GENERAL DIRECTIONS

This criterion-referenced checklist may be used yearly, beginning at the age of 6, to assess child’s level of performance in the twenty-four critical employability skill areas identified by Ohio’s Employability Skills Project. Three descriptors are provided for each skill. Child performance should be rated using the following scale: 3 = usually, 2 = sometimes, 1= seldom, 0 = never.

EXAMPLE (for a 6 year old child)
